

EXCITING TIME
AT STRIKE HEARINGTWO OF PARTICIPANTS ALMOST
CAME TO BLOWS.Wordy War Between Congressman
Berger and Citizen From Lawrence
Over Contributing Dollar Toward
Paying Expenses of Witnesses.

Washington, March 2.—At the conclusion for the day at an unusual hearing before the house committee on rules on bills proposing an investigation of conditions relating to the strike of textile workers at Lawrence, Mass., Representative Victor Berger of Wisconsin and Robert McCartney of the citizens' committee of Lawrence almost came to blows and were separated by Representative Wilson of Illinois.

The rules committee had adjourned the hearing to be resumed on Monday, necessitating the stay in Washington of women and children from the Lawrence woolen mills who had been sent here to give testimony concerning strike conditions.

Representative Henry said no provision had been made by the committee. On the suggestion of Representative Wilson of Pennsylvania, a collection was started. Several Lawrence young women were making the collection, and when Postmaster Cox of Lawrence contributed a dollar, Berger protested and instructed the young woman to return the money.

"We don't want any blood money," Berger declared.

"Who are you?" demanded McCartney of Berger.

"I represent the people of Wisconsin," Berger hotly replied, "and I don't propose to have these people receive a ny blood money."

"I probably have as much money as you have," McCartney replied, "and it is not blood money."

The Massachusetts man was shaking his fist in Representative Berger's face and the Socialist congressman was emphatic in his language, demanding that the dollar be returned by the young woman.

As she gave back the money, Representative Wilson of Illinois, a member of the rules committee, intervened between Berger and McCartney, who were almost on the verge of combat. His interference in the squabble ended the controversy and McCartney and Cox left the room.

This was the climax to an exciting session of the committee in which the Lawrence strike conditions were revealed from several rival sources.

Samuel Lipson, a member of the Lawrence strike committee, was on the witness stand and Representative Tamm of North Carolina sought to get him to describe the scene at the station when the police and the militia prevented children from being sent away from the strike city. Lipson told of the police grabbing the children and throwing them into patrol wagons and of shouting and clubbing the mothers of the children. He admitted, however, in response to a question that he had not seen mothers clubbed. The witness told of seeing John Roney, an inoffensive citizen and not even a strike sympathizer, joyfully by militia.

The witness also told of the killing of Anna Lapiseo, he said by a policeman, and admitted two labor leaders had been arrested in connection with the death of the woman. The witness said the strikers wanted their children sent away from Lawrence so as to keep them from being hurt.

Representative Foster of Illinois asked Lipson if it were true that the striking textile workers had thousands of dollars deposited in the savings banks of Lawrence.

"Oh, no," answered Lipson, "how could you get five or six dollars a week put money in the savings bank?"

"But wasn't it discovered," Mr. Foster continued, "that one of the striking women, who was hurt, had \$700 in cash with her?"

Lipson admitted that this was so, but explained that she had just received the money as a legacy.

Disputes Berger's Statements.

John Golden, president of the textile workers' union, contradicted some of Representative Berger's allegations as to the comparative number of workers of the world and members of the textile workers' union there were in Lawrence.

Golden said that conditions in Lawrence are bad enough but in the south conditions are worse and wages lower. He said that the union's conception of a strike is one brought about in an orderly manner but in this instance no one "knew five minutes before the pay envelopes with the first reduction taken from them as the result of the 34-hour law that there was to be a strike."

Turning to Representative Berger he said:

"It is all the fault of your Editors and your Haywoods, who have gone to Lawrence and poisoned the minds of the mill workers. They have not preached trades unionism to them, but absolute anarchy."

"That is a lie," cried several of the girl strikers, and Chairman Henry threatened to clear the room.

Replying to questions, Golden said that as a result of their conduct in Lawrence and their urging violence the Workers of the World were considered an organization of anarchists. When Golden declared that a leader of the Workers of the World, a man

named Ettor, said "the gun shops had better get busy because he was going out and buy a revolver," several witnesses denounced the statement as a lie and declared Ettor never said that.

The hearing adjourned until Monday.

SWINDLING SCHEME

Methods Used by Chicago Men Re-semble Those of Mabray Gang of Swindlers.

Chicago, March 2.—Methods said to resemble those used by the Mabray gang of swindlers were discovered by the Chicago police today when three men were arrested charged with attempting to swindle a Chicagoan out of \$500.

The men under arrest were said to have represented themselves to be wire tappers. They told the Chicago business man, whose name was not divulged, that they could get results from the Charleston, S. C. track far ahead of the pool rooms.

They attempted to get \$500 to place with a nearby bank after they had secured the name of the winner of the race.

In the rooms at a downtown hotel occupied by the three men who were arrested, the police found sheets purporting to show that bets to the amount of \$100,000 had been received by the prisoners. The detectives also seized \$425 in bills of large denominations which were found on the outside of packages of "sham money."

These packages were in an open tin box, where a visitor would see them. Some of the packages were labeled \$1,000, while in reality the bill that was genuine was a five dollar bill on the outside of the package. The men held are C. W. Flannery of Springfield, Ill., and William Moran of Detroit, Mich.

BADLY DISFIGURED

Attempted Holdup of Puggist and Looting a Bank Lands Him in a Hospital.

Aurora, Colo., March 2.—Still showing facial disfigurements received Thursday night in an attempted holdup of a pugilist here, Dwight Day, of Council Bluffs, Ia., who registered at a hotel as "Dwight Day, Cincinnati, Ohio," is in the county hospital preparing for the amputation of his left arm.

His shoulder was shattered by a charge of shot received in escaping after successfully looting the Aurora State bank today. He secured \$505, but this was recovered. Day went up to the cashier's cage of the bank, where Assistant Cashier Welch had just spread his cash and at the point of a pistol compelled the cashier to hand over his revolver. He then filled his pockets and backing out released the spring lock, imprisoning the cashier. He was pursued by a citizen into an abandoned powder mill, where Day was shot in the arm. Here the police captured him.

At the county hospital, coming out from the influence of an anesthetic, he said his name was Dwight Day, brother of George Day, living at Council Bluffs, Ia.

USED MAILS TO DEFAUD.

Father and Son Arrested by Government Officers.

Chicago, March 2.—Josiah T. Hair and his son, Burdard R. Hair, formerly operating the Liberty Manufacturing association in Chicago, were arrested in Detroit today by post office authorities charged with fraudulent use of the mails.

Post office department officials declare that Hair and his son obtained more than \$100,000 from various persons in the middle west in the last year by employing agents for their company and requiring each to invest from \$500 to \$1,000 for a stock of fine extinguishers which were invoiced to the agent at \$2 each and which cost 15 cents, according to the representatives of the government. The agents were promised \$100 to \$500 a month salary, according to postal officials, but never received the compensation. The men will be brought to Chicago for a preliminary hearing.

JURY FAILED TO AGREE.

Davenport, Iowa, March 2.—After being out 52 hours, the jury before which Mrs. Anna Kilduff was charged for murder of her husband, reported its inability to agree, and was discharged. Mrs. Kilduff shot her husband through the head, killing him instantly, October 30, 1911, because he was unfaithful and failed to support her. Her trial lasted 18 days. The state announced early in the trial that it would not ask for capital punishment. The jury split seven for acquittal and five for second degree murder.

KIMMEL JURY LOCKED UP.

St. Louis, Mo., March 2.—The jury in the Kimmel insurance suit, which began consideration of the famous identity mystery shortly before noon, was locked up in a hotel after 5 o'clock today on orders of Federal Judge Amidon. If a verdict is reached it will be sealed and read in court Monday.

PAY TRIBUTE TO
GREAT NOVELISTBANQUET GIVEN IN NEW YORK
IN HONOR OF WILLIAM D.
HOWELLS.Col. Harvey Was Host When Four
Hundred Prominent Literatures
Gathered to Celebrate Veteran
Writer's 75th Birthday—President
Taft One of Speakers.

New York, March 2.—William D. Howells was the central figure tonight at a banquet party which will be memorable in the literary world. The novelist was 75 years old today, and to do honor to him the president of the United States and more than 400 prominent men and women in literature gathered as dinner guests of Col. George Harvey.

Mr. Howells received congratulatory messages from literary celebrities all over the English speaking world.

President Taft said in part:

"I have traveled from Washington here to do honor to the greatest living American writer and novelist. I have done this, because of the personal debt I feel for the pleasure he has given me in what he has written, in the pictures of American life and society and character he has painted, and with which I have had sufficient familiarity to know the truth and the delicacy of his touch. Neither the rhythm nor the emphasis nor the shading of his meaning have robbed his style of the lucidity and clearness that delight a common mind like mine, and his delightful and kindly humor that leaves a flower in ones memory has created a feeling of affection for the author that prompts an expression like this."

"Easily at the head of the living literary men of the nation, Mr. Howells is entitled, on the celebration of his 75th birthday, to this tribute of respect."

"Like Shakespeare, like Burns, like Lincoln, Mr. Howells is not a university man but began his literary education of himself upon a country newspaper at a time of life when others sought to prepare an academic training, and he has continued that education to this present period of youthful old age. Born in Ohio, in a 'boys' town, upon the beautiful river, he formed what was there an unusual ambition to succeed as a man of letters, and he began at the very bottom rung of the ladder by learning to set type."

"Mr. Howells is not a writer whose periods of inspiration are fitful and occasional, but he has educated and prepared himself to do literary work in other professions, making his mind and imagination respond to the regular demand of duty."

On the other hand like Trollope, who worked like a machine, finishing so many pages a day and showing in his work the evidences of haste and mechanical striving, all that has come from Mr. Howells's pen is beautiful, wrought out with no suggestion of hurry or the machine."

Mr. Howells has been content to live in literature. He has not attempted to play a part in no other sphere. By taste, by ability, by imagination, by the genius of taking pains, he finds himself now five years beyond the age of the psalmist representing the best and highest of American literature. Everything that he has written sustains the highest standard of social purity and aspiration, of refinement and morality, and of wholesome ideals and he has added to American literature a treasure of literary excellence, the enjoyment of which will make coming generations grateful."

Mr. Howells, who sat between his host and the president, was enthusiastically applauded for his address on literature, which was the principal speech of the evening.

Drawing from a fund of reminiscences of world-famous writers, Mr. Howells spoke with reverence and love for old friends, but optimistically of the present and future of American literature—"all departments of which he saw 'a high or higher average'—which is the distinctive American thing."

TRIAL HALTED

Counsel in Packers' Case Dispute
Over Introduction of Documentary
Evidence.

Chicago, March 2.—A dispute between counsel over the introduction of documentary evidence halted the packers' trial today and caused an adjournment of court until Monday morning.

The government attempted to introduce the weekly total shipments of dressed beef made by Swift & Co. and Morris & Co. in 1908, 1909 and 1910.

The defense objected and insisted that the statements should include the profit made by the packers, on the tonnage as the earnings were part of the book entries.

Judge Carpenter overruled this objection and excoised the jury while the attorneys wrangled for several hours over the method of presenting the statistics.

The defense had prepared totals on the tonnage which they offered the government but District Attorney Wilkerson wanted to have his own accounts prepared the figures.

After a long discussion the government agreed to use the figures prepared by the defense after they had been verified and they will be read to the jury Monday morning.

QUIET PREVAILS

Martial Law at Pekin Is Successful—
Many Tour City and View Result
of Revolt.

Peking, March 3.—Martial law, which has been proclaimed in the capital, is operating successfully. At 1 o'clock this morning quiet prevailed in the vicinity of the legations, and continual cannonading was heard in the direction of Feng Tai, with which communication has been temporarily cut off.

A detachment of American troops is due at 8:30 o'clock this morning. One train due at 7:30 last night has not yet arrived. The legations are preparing for a siege. Direct attacks of the legation quarter are not feared, but the Chinese troops possess many modern guns which might be used effectively if turned on the legations.

The American women and children have been concentrated from the other missions into the ample compound of the Methodist mission a block from the legation quarter. This compound is surrounded by high walls and can easily be defended. The men connected with the missions remain in their own quarters on guard with a few American soldiers. Detachments of other foreign troops are guarding outlying property.

The delegates represented approximately 4,000 members of the order. At the recent national convention of the organization it was decided to raise the rates to go into effect January 1, 1913.

DIED OF NATURAL CAUSES.

Chicago, March 2.—Herbert L. Swift, son of the late Gustavus F. Swift, a Chicago packer, died of natural causes, according to three physicians who completed an autopsy at the Swift family mausoleum in Mount Hope cemetery here today. The doctor said bruises over the right eye and the cut above the left eye were altogether superficial and could not have caused Swift's death. Herbert L. Swift died on a railroad train near Milwaukee last October. A coroner's inquest in Milwaukee gave heart trouble as the cause of death.

BANK ROBBER
MEETS HIS DEATHONE OF FIVE WHO TRIED TO
LOOT BANK AT MONTREAL.Engraved Ring in Dead Man's Pocket
Indicated This Wedding Was
Fixed for March 5th—No Clue as
to Identity.

Montreal, March 2.—The killing today by a vigilance committee of a bank robber who was shot to death during the pursuit of five men who tried to loot a branch of the Royal Bank at Montreal West, ended a romance, which apparently was to have culminated on Tuesday. In the clothing of the dead bandit was found the picture of a girl, pasted in the back of a pocket mirror and a new wedding ring engraved with the words:

"Will to Kitty, March 5th, 1912."

The ring with its engraving and a tattoo mark on the chest of the man bearing the words:

"In memory of mother and father" are the only clues by which the police hope to establish the identity of the robber.

Four members of the gang escaped after a running fight with the vigilance committee, which attacked the robbers before they could obtain any booty. The fugitives were supplied with snow shoes, which enabled them to outrun their pursuers. The leader of the vicious band brought down one of the men in a pistol duel.

by Mexican Rebels—American
Ambassador Will Investigate.

Washington, March 2.—Former Congressman John C. Chaney, of Indiana, and a member of the fifty-ninth and sixtieth congress, was captured and held prisoner for some time in Mexico by the insurgents, but later was released. Mrs. Chaney today visited the state department in an effort to have the government ascertain what had become of Mr. Chaney since his release. She had received word he had been set free, but the message contained no other information. The state department sent instructions to Ambassador Wilson at Mexico City to make every effort to ascertain whether Mr. Chaney is safe.

The former congressman had gone to Mexico with five other men, two from New York, to investigate some mine properties. Whether the other men also are held by the rebels has not been learned.

Act.

Valent, Ore., March 2.—Because of her inability to earn enough money to keep her four children from starving, Mrs. L. F. Jellison, 36 years old, administered cyanide of potassium to each of them and then drank a dose herself. All five are dead.

A letter received today by Chief of Police Hamilton from Mrs. Jellison said that as her son had left her and she could not earn enough to keep from starving and she could not see the children starve. She told him to take the \$21 in her purse and use it to bury her and her children.

On receipt of the letter the chief of police went to the house, but found it locked. In a tent in the yard he found the bodies of mother and children huddled on the bed. An empty bottle which had contained cyanide of potassium, lay beside them.

The ages of the children were: Evelyn, a girl, 15, Harland, 13; Maud, 11 and Raymond, 9. Only the youngest showed marks of violence, as though forced to swallow the poison.

The son referred to was a stepson, who left home a few days ago.

AMERICANS ARE
GIVEN WARNINGPROCLAMATION ISSUED BY
PRESIDENT TAFT.Tells Americans Not to Enter Mex-
ico and Those There to Leave When
Conditions Become Intolerable—
Wants No Intervention.

Washington March 3.—The gravity of the situation in Mexico caused President Taft today to issue a proclamation to citizens to refrain from interfering with the government of Mexico and to those there to leave when conditions become intolerable. The decision to issue such a warning was reached at a special meeting of the cabinet.

The proclamation was augmented by a telegram addressed by the state department to Ambassador Wilson in the City of Mexico. The ambassador was instructed to inform Americans in peril there to withdraw across the border, leaving their effects in the care of the nearest United States consul. Copies of the telegram were sent also to all consular agents.

The president's utterance it was explained, was in no sense a recognition of the revolutionary movement in the republic to the south. Neither was it to be looked upon as a declaration of neutrality. It was declared the utterance was solely a warning to Americans to avoid anything that might savor of partisanship in the existing state of affairs.

The proclamation is interpreted further as an expression of this country's intention to avoid by every possible means any chance of intervention.

The president after setting forth conditions in Mexico and citing laws of the United States applicable to those who may be misled into participation in transactions which are violations of the laws, admonishes all citizens to abstain from every violation of these laws, and warns them that all violations will be rigorously prosecuted. The proclamation closes:

"I do hereby give notice that all persons owing allegiance to the United States who may take part in the disturbances now existing in Mexico, unless in the necessary defense of their persons or property, or who shall otherwise engage in acts subversive of the tranquility of that country will do so at their peril and that they can in no wise obtain any protection from the government of the United States against the appropriate legal consequences of their acts insofar as such consequences are in accord with equitable justice and humanity and the enlightened principles of international law."

Instructions were sent Ambassador Wilson and duplicated to the United States consuls in line with the proclamation.

State department officials insisted that the issuing of the proclamation and the dispatch of telegrams were not the result of startling or sensational developments today in the Mexican situation. It was said they were the result of many conferences in the last few days and of long exchanges by wire between the department and Mr. Wilson in the City of Mexico.

Because of the interest felt by European nations, many of whose subjects are resident in Mexico, the state department had fully advised with their diplomatic representatives in Washington. The British, German, Spanish and French embassies here were informed of the proclamation and of the instructions to Ambassador Wilson so the diplomats might similarly direct to their national representatives in Mexico.

WON BY FLIP OF COIN.

Milwaukee, Wis., March 2.—The flip of a coin late this afternoon which favored Frank Edmison of Rockford, Ill., landed him as president of the Wisconsin-Illinois Baseball league over Frank Weeks of Green Bay, to succeed Charles F. Moil, who resigned about a month ago.

Eighteen ballots were cast, the result being four votes to each candidate. The coin was resorted to to break the deadlock.

ATTACK THREATENED.

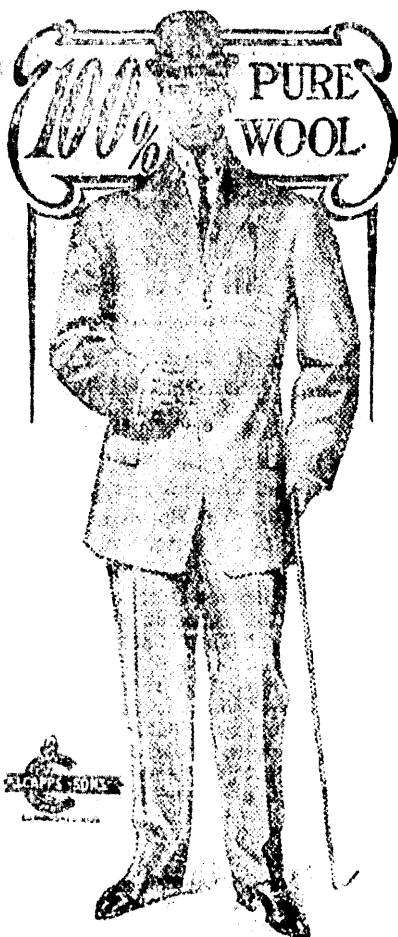

Washington, March 2.—Messages from Minister Calhoun at Peking received at the state department stated a Manchurian attack on Peking was threatened. No further information on the impending attack was made public by the officials, but it is undoubtedly the cause of the foreign ministers at the Chinese capital calling into Peking the troops of different nationalities.

Uncle Sam Buys a Buick Motor

A model 28 Buick motor car was delivered to Colonel Spencer Crosby of the Department of War at Washington, to be used by the inspector of buildings and grounds on his daily trips.

The government invited all the leading manufacturers of cars priced from \$900 to \$2,000 to submit a car in competition to a committee of expert mechanical men. These cars were driven to the designated place and the drivers dismissed.

The examination was then made with no representative of any of the cars present. Motor for motor, shaft for shaft, bolt for bolt, the cars were compared, tested and appraised by the government experts. One by one the cars were eliminated until but one remained. It was the Buick.

Of the seventeen or eighteen cars submitted the Buick alone stood the rigid test of quality and construction, upon which the examination was based. This car was at once turned over to the government for immediate service.

ILLINOIS WILL ENTER TOURNAMENT

State Championship to Be Decided Among College Basketball Teams at Meet to Be Held in Bloomington This Week.

The annual intercollegiate basketball tournament of state colleges, including Illinois College, Millikin, Lombard, Wesleyan, Bradley, DePaul, Lincoln, Normal and Eastern, will be held in Bloomington March 7, 8, 9. Just what honors will come to Illinois college are problematic, as Millikin, Wesleyan and DePaul are counting much on winning the coveted prize. When the drawing was made some time ago, Illinois drew Eureka and in making up the two divisions, these colleges, together with Hedding, were out of the matches made up so they will play the winners of the first series of games played Thursday morning. The schedule will be:

Thursday, 1:30 P. M.
Shurtlett vs. Bradley vs. Lombard.
Wesleyan vs. Normal.
Lincoln vs. Millikin.

Thursday, 7:30 P. M.
Illinois plays winner of Shurtlett-Bradley game.
Eureka plays winner of William and Vashit-Lombard game.

Hedding plays winner of Wesleyan and Normal game.
Illinois ought to have no trouble in defeating either Shurtlett or Bradley as they will have played one game in the afternoon and Illinois will be fresh for the evening contest. If I. C. should lose this will not eliminate them from the race, for according to the rules, each team must be defeated twice before dropping out.

It is probable that Rufus Gilbert, coach of the football team of Bradley Polytechnic institute, will act as referee. Coach Harmon has entered the following men: Phillips, (capt.), Buchheit, Hedgecock, Jackson, Johnson, Swain, Darragh, Alford, Earl and Hunsaker.

Cancelled Game With Millikin.
Coach Harmon wired Millikin Saturday morning that his team could not play the game scheduled for last night. Phillips couldn't go. Darragh is ill and one or two of the other men were not in shape to go. The coach thought it would be folly to take such a trip with a weak team.

The grandest millinery assortment ever shown in this city is now here—beautiful pattern hats, street hats and sailors—all at 20 per cent discount during our sale.

BIRTHDAY SURPRISE.
J. W. Taylor, of 1049 West College avenue, was given a surprise Saturday on the occasion of his 64th birthday. In honor of the event his sisters came over from Virginia. Mrs. Margaret Campbell, Miss Alice Taylor, and Mrs. W. W. Frank and her husband, Miss Taylor was accompanied by the two little sons of her Taylor, Robert and Henry. The other two guests, present, besides members of the family, were Miss Elizabeth Stevenson and Charles Hoagland of this city.

At the noon hour a sumptuous four-course dinner was served, a birthday cake, being among the treats. The afternoon was spent in a social way. Mr. Taylor was kindly remembered by some appreciable gifts and all his friends will unite in wishing him many happy returns of the day.

Many persons outside the membership of the church have been drawn by the beautiful music and the splendid preaching. Rev. Mr. French will use as his theme to day "Jesus and Needy Women." As special musical numbers, Miss Mabel Matthews will sing "The Lord is Mindful of His Own," by Mendelssohn, and Miss Natalie Jensen will play a violin solo, "Meditation," by Massenet. Building for Permanency

Everybody likes to build, but nobody likes "repair jobs." They inevitably represent an additional investment without any addition to value. That point is worth digesting.

When you build, whatever you build, you like to build "for keeps."

Some people change their minds about styles in building; the same as wearables; our tastes develop and result in changes in our wants, but nobody changes his or her mind as to wishing to get the greatest possible endurance

or wear out of the things they buy, and especially is this true of building investments.

Those who build for time have a care in the selection of lumber. We had this in mind in buying our extensive lumber stock and we would be pleased with a chance to give you a figure on whatever lumber bill you may have in mind. The prices named will be satisfactory and the **lumber quality** will more than meet your expectations.

MUNICIPAL AFFAIRS.

To morrow morning, aside from attending to the routine business of the session the city council will struggle with the perplexing questions involved in the street railway franchise and the gas franchise. So far as the street railway measure is concerned about the only point on which some of the commissioners are not satisfied is that relating to the notice the street car company shall give of its intention as to a renewal prior to the expiration of the twenty year franchise now pending. There is a feeling among the commissioners that provision should be made requiring that at least six months prior to the expiration of the rights granted by the franchise that the company must notify the city as to its intentions about application for a renewal. The purpose is to have negotiations opened up in time to permit of an understanding being reached before the franchise has actually expired. Otherwise it might be possible for the company to go ahead operating without a franchise for a more or less extended period while negotiations for a new franchise were under way.

When it comes to the gas franchise there are more difficulties in the way of arriving at any speedy agreement between the council on the one hand and the officials of the light company on the other. Some of the commissioners want \$1 gas and maintain that conditions here justify that price as much as is true in Galesburg and some other cities. The gas company maintains that the conditions here for the manufacture of cheap gas are not as favorable as in some other cities and that the consumption here is far less than in other cities where the rate is just as high as here. Some of the officials, however, feel that if the equipment in the Jacksonville plant were modernized that gas could be produced cheaper than now and they claim also that gas coal costs little or no more here than in other cities.

So far as rates are concerned, however, to an observer it looks as if the gas officials and the city officials can get together without much trouble. There are other points, however, on which the gas men and some of the city officials hold views quite far apart. The franchise ordinance as prepared by Mr. Hargrove has in it sections providing that the city shall have access to the company's books at all times in order to examine them and determine what is the real cost of making gas. If this seems advisable at any time. Another section also makes the provision that the rate to be charged for gas as stated in the franchise shall be effective for five years only and that the rate may be changed for the five years following or may not be disturbed.

The gas company ordinance has no section providing that the city shall be given the company's books and the company objects also to leaving the matter of rates to be adjusted every five years. The gas people argue that a rate adjustment every five years would furnish a club for an untidy council and that it might easily happen that some official or set of officials would decide to insist on a low rate no matter what the showing as to the cost of gas.

Certain of the city officials argue, however, that it is not safe to figure now as to the cost of making gas ten, fifteen or twenty years from now and that it is fair to arrange for prices effective five years at a time. They say that this also affords protection to the company in that it opens up a way for increasing prices if it can be successfully shown that the cost of making gas has grown to such an extent with passing time and changing conditions that a reasonable profit is not permitted on the old schedule.

Referring again to the matter of gas rates the feeling among city officials seems to be more pronounced as to the service and the quality of gas furnished. The present rates are as low as prevail in many cities as large or larger than Jacksonville and in some still larger the rates are not much less. When it comes to the matter of pressure and the quality of the gas though, the city officials seemed to be of the united opinion that Jacksonville has not been getting the service to which it is entitled. Provisions will certainly be made in the franchise passed by the council for increasing the gas pressure and for improving the quality. Testing apparatus to be owned by the city will be required and it will thus be possible to make a test at any time in order to determine the quality of the gas furnished on any day. The city officials believe that better gas and better gas pressure will really be more helpful and beneficial to the public than would gas rates a trifle less than now afforded.

The gas ordinance prepared by the city also provides for the testing of meters which are deemed by any consumer to be working in an unsatisfactory manner. All details are arranged in this ordinance, showing the manner of such a test and providing what requirements must be met if a meter is declared to be in proper condition. The ordinance submitted by the Gas Co. also provides for the testing of meters, but its provisions are not so broad as those outlined in the city's submitted franchise. Those and other points in the two gas franchises remain to be threshed out.

The Jacksonville Gas company has practically completed the work of getting the signatures of property owners on streets, which are to be traversed by the street railway, or which are to be used for gas pipes or electric wires. The law provides that when any franchise granting the right to use streets is passed that the consent of a majority of property owners must be shown by a petition bearing their signatures. It is necessary to secure the consent of a majority on each street travers-

All About Stealing.
"Why do you call your story 'The Thieves' Romance?'"
"Because it is all about stealing."
"How?"
"Well, the story of the romance goes this way: 'She stole a look; then he stole a kiss. Next they had stolen meetings, they stole a march on their friends, and both stole away.'"
"I suppose the next thing they will be stealing back."

Bagpipes.
Bagpipes, mentioned in Jeremiah xlviii, 36, "Mine heart shall sound for Moab like pipes, like pipes for the men of Kir-herser," and elsewhere in Scripture were used also by the early Egyptians. Both Greeks and Romans knew the instrument, for a coin of Nero shows upon one side the tibia utricularis, a bag with two reeds and nine pipes. Procopius also, who wrote about 550 A. D., asserts that Roman soldiers sometimes marched to the sound of the bagpipes, and it is not impossible that they introduced them into the British Islands. The earliest modern reference to them is in an Irish MS. of 1150, and an Irish illuminated MS. of 1290 depicts a piper playing on the bagpipes. The Scottish highlanders were the first and only people to use the great war pipe, as the highland regiments still do.

"Well," said Rufus, "we haven't any now, but we have a carload coming."—Saturday Evening Post.

BLACKBURN-FLORETH CO

WHEN Y.M.C.A. WAS ORGANIZED

EARLY HISTORY OF ASSOCIATION IN JACKSONVILLE.

Old Book of Records Found at Building Contains Many Interesting Facts—Dr. W. H. De Motte Was First President.

While J. H. Rayhill, president of the Y. M. C. A., and Louis Recker, the janitor, were moving some of the desks and rearranging some of the books and records at the association building the past week, they came across the first records of the local Y. M. C. A. The old book was found to contain a very interesting matter. It gives an account of the visit of a representative of the National Y. M. C. A. in May, 1879, for the purpose of forming a local branch, this being the beginning of the Young Men's Christian association in Jacksonville. The association met for years in what was then known as Temperance hall and in various other public halls until in 1889, when the association building was erected.

Names of Charter Members.
"During the month of May, 1879," the record says, "the city of Jacksonville, Ill., was visited by Mr. Weidenhall, agent of the National Young Men's Christian association, with a view to the formation of a local branch of the same. A call was circulated among the young men and the following signatures were obtained:

"W. H. De Motte, J. A. Chain, Charlie M. Eames, S. Nichols, Dr. W. E. Lemon, S. B. Hardy, R. D. Russell, George W. Rutledge, R. P. Gass, L. A. Patterson, D. W. Fairbank, J. F. Kelsey, H. Chapin, C. McDonald, William B. John, T. G. Taylor, L. B. Canover, J. J. Sumner, Israel Wilkinson, J. March, Patterson, Gilbert Thayer, J. R. Dunn, Lyman L. Adams, Dr. C. Fisher, W. E. Veitch, H. O. Turner, W. H. Savage, John T. Anderson, J. P. Lippincott, E. L. McDonald, George W. Bailey, W. B. Wilson, John T. Mathers, I. Zeigler, A. H. Meek, Mr. Hamilton, Fred A. McDonald, Rev. N. P. Heath, Horace Billings, Dr. T. J. Pitner, George W. Brown, E. M. Sanford, Prof. E. A. Tanner, E. N. Pires, Charles Cassell, Philip G. Gillett, John Ditch, C. A. Catlin, W. N. Nisbet, James Fishback, David L. McGinnis, J. V. Read, C. H. Williamson, A. H. Sturtevant, E. A. Barber and A. A. Dewey.

Meeting for Organization.
"Pursuant to the call a meeting was held at the Congregational church in the afternoon of May 29, 1879, for the purpose of organizing an association. Mr. Weidenhall in a few words explained the nature and object of the meeting. Prof. W. H. De Motte was called to the chair and J. A. Chain was chosen secretary. A committee on permanent organization was appointed the following men being chosen to represent their respective churches:

"Prof. W. H. De Motte, Centenary M. E.; Charles Cassell, Centenary; Charles M. Eames, First Presbyterian; J. A. Chain, Second Presbyterian; Godfrey Tendick, German M. E.; Prof. Israel Wilkinson, Baptist; William E. Veitch, West Charge M. E.; George W. Bailey, Congregational; William G. Gallagher, Westminster Presbyterian; Joseph E. Cherry, First Portuguese; Rev. E. N. Pires, Second Portuguese; Prof. Henry Higgins, Trinity Episcopal; Rev. J. J. Sumner, South Main Street; Rev. Hardin Wallace, Brooklyn M. E.; Lafayette Allen, Colored M. E.; and William Stewart, Colored Baptist."

The next meeting was held at the county court house June 13, 1879, at which time a constitution was submitted and adopted. Officers were also elected as follows:

President—W. H. De Motte.
Corresponding Secretary—J. A. Chain.
Clerk—C. M. Eames.
Treasurer—Thomas J. Pitner.
Vice president—George W. Bailey.
Board of directors—Charles Cassell, Christian; J. P. Lippincott, Westminster; Horace Chapin, Congregational; William E. Veitch, West Charge; S. B. Hardy, First Presbyterian; T. G. Taylor, Central Presbyterian; E. M. Sanford, Centenary; R. D. Russell, South Main street; E.

N. Pires, Second Portuguese. Prof. De Motte and L. B. Glover were elected delegates to represent the association at the international convention to be held at Indianapolis, June 20, 1879.

Association Building Erected.
As stated above the association was without a home until 1889, when the Y. M. C. A. building was completed. The quarters then were not as they are now, as the east wing, now occupied by the gymnasium, has been built since. The gymnasium was first located in the basement.

For a brief summary of the movement which resulted in giving Jacksonville its Y. M. C. A. building, the following is quoted from the report of the building committee, submitted by them at the completion of the work:

"About five years ago an effort was made to raise a building fund and about \$1,500 was subscribed. After consultation it was deemed advisable to abandon the project and immediately proceed and the committee decided to study the matter before the community until a more favorable opportunity should offer. On the 6th of August, 1879, the deed to the lot on Morgan street was made to the association by Mrs. Thomas. At our last anniversary meeting a plan for a building was presented and the committee concluded to make an effort to raise a fund of \$10,000 to put it up. On the 28th day of November, a parlor conference was held at the Jacksonville Female Academy, which a number of citizens attended. Mr. John V. Farwell of Chicago presented the work of the associations, and without any preconcerted arrangement for soliciting funds, about \$1,000 was subscribed. Since that time the work has been pushed and the sum of \$10,000 pledged. On the 26th of August, 1889, the excavating for the building was begun, and Jan. 1, 1891, we hope to have it ready for occupancy. The building includes a library and reading room, conversation room, prayer room, museum, lecture room, rooms for the Young Men's Christian association, a gymnasium and bath rooms. To our friends in the city and country we are indebted for the generous help extended.

"Thus reads this brief report of a committee, which with our zealous president, Pitner, and our equally earnest ex-presidents, Gilman and Russell, upon it has labored nobly and manfully for the success of this much needed home."

Fund Completed in Six Years.

"As in the beginning the Creator labored six days before the rest of the seventh, so we, as an association, have wandered and struggled, homeless, for the six years, may we not now be entering into the rest of our longed for home in this seventh year of our existence—not to rest from our labors, but to be made more useful through the material instrumentalities placed in our hands by the citizens of Jacksonville, and which shall be as solemnly dedicated to His services as our lives have been by our vows at consecrated altars. We are but at the beginning of our usefulness as a body. May our weak arms be strengthened; may all within the reach of my voice feel it a privilege to aid the cause we represent—if members, by filling appointments, by attending all meetings, by asking friends to join, by prompt payment of dues and by donations to any branch of our work. If not members, by becoming such and inducing others to, and by voluntary subscriptions. May God speed us hereafter, in our labors, and may God bless you, friends, in your moral and material support of the Jacksonville Young Men's Christian association."

A New Coat for Young Women Has the Fashionable Draped Revers

It is made of sturdy serge, mannish or wale diagonal, and has a trimming of two-toned striped serge on the imitation collar, the draped revers and the deep cuffs. It has the stylish wide, straight sleeves, set into a moderately deep armhole and the armhole is piped with striped serge, an unmistakable stamp of style newness. The lines of this coat are admirable and it boasts the staunchly good workshop of Worth tailoring that means the preservation of its beauty under stress of long wear.

\$16.50

A noteworthy model of fine whipcord serge has the draped revers and wide cuffs of black and red Pekin striped worsted. To relieve the plainness of the back, a rounded tab of the whipcord and worsted appears on each side of the back panel. \$18.75

A miscellaneous group of high-grade mixtures in grays and browns, in single and double tones make up of the draped revers. They join the small flat collars with a break at the shoulders. Nearly all these coats have set-in sleeves with large arm-holes and wide cuffs. Outside of these features, however, the variety is great in shapes of back and trimming ideas as it is in color.

We cannot go into details here, and for the coats, \$12.50, \$15.00, \$17.50, \$20.00 and \$25.00

SOCIAL EVENTS.

President and Mrs. C. H. Rammelkamp gave their annual reception to the students of Illinois college, Whipple Academy and the Conservatory of Music last night at their home on Lockwood Place. A feature of the evening's program was a series of entertainments executed by the girls of Academy Hall and representatives of the Conservatory, in competition for a prize.

The girls of the hall presented a little five act play entitled "All's well that ends well." The play illustrated student life, and incidentally a number of characters, familiar on the campus and among the students were worked in. It was splendidly done.

For the Conservatory Mr. Kitch played a "Barn Yard" violin solo and Miss Carrie Dunlap told the story "Of the Piano," much to the delight of all.

The members of the Senior class were designated by President Rammelkamp to act as judges in the contest and in reaching their decision the meeting terminated in a "deadlock." A member from the Junior class had to be called to adjust matters and he cast the deciding vote, giving the honors to the Academy girls. The boys of Crampton hall were to have entered the prize competition, but their troupe got stuck in the deep snow.

During the course of the evening, palatable refreshments were served, the girls of Whipple Academy assisting Mrs. Rammelkamp in this department. The evening proved one of keen enjoyment to everyone.

Mrs. Lambert Hastings gave a dinner Saturday at her home on South Main street in honor of Mrs. George Schofield. The decorations in the front room were "in carnations and in the dining room red carnations. An elegant seven course dinner was served which was greatly enjoyed by the guests. The afternoon was spent in a social way. The Schofield family will move shortly to the Elva Schofield farm near Arnold.

Among those present were Mrs. Eccard Hoffman Mrs. William H. brough, Miss Anna Ryan, Mrs. George Schofield and daughter, Miss Mabel, Mrs. Frank Pechloff, Mrs. Claude Self and children and Mrs. Alice Bennett.

Mr. and Mrs. L. B. Brainer entertained a company of about thirty friends Saturday evening at their home on South Clay avenue, in honor of their twenty-fifth wedding anniversary, the guests being members of Minnetonka Council, No. 71, D. of P. The evening was pleasantly spent at cards and with music and during the hours delightful refreshments were served. Mr. and Mrs. Ora Watkins of Chandlerville were present from out of the city.

ADDRESSED DOMESTIC CLUB AT MURRAYVILLE.

Miss Edna Strader, head of the Domestic Science department of the State School for the Blind, was a guest yesterday of the Domestic Science club of Murrayville. There was a large attendance and the gathering was held in the high school building. Miss Strader read an interesting paper dealing with the raising of chickens, dressing and cooking them, and also spoke of their nutritive value to the body. She gave a demonstration of boning a fowl. This fowl was put up at auction by Mrs. Justus Wright and was purchased by Prof. J. H. Dial for \$1.35. A committee composed of Mrs. Lou Rimey, Mrs. Bert Sooy and Mrs. Edgar Waitlock had prepared some sandwiches and a chicken was put through the boiling process, baked and served.

The afternoon was an exceedingly profitable one and the members at Woodson will recall Miss Strader's visit with much pleasure. There are eighteen connected with the club in Woodson and the officers are:

CARPENTERS STRIKE

Local Union Men Ask an Increase of Wages From 40c an Hour to 45c

The carpenters belonging to the local Carpenters' Union No. 304 went on a strike March 1 for higher wages. The scale is now 40 cents per hour and they are demanding forty-five cents an hour. There are about 70 men who belong to the union.

The contractors, of whom there are twelve in the city, were notified, and at once they held a conference and informed the men that they would not stand for the price asked. The union notified the contractors about a month ago that they were likely to ask for an increase wage, so the strike did not come as a surprise. The union is also asking for 50c per hour for scraping floors and the forty-five cent scale must be carried out in the country, besides giving transportation and board. Several jobs will be held up as a result, among them the work at the Jacksonville State hospital, Gates Strawn's residence, Elliott residence and smaller jobs. The James Stewart Construction company, contractors for the Ayers National bank, has agreed to the increase.

WOMAN'S COLLEGE NOTES.

C. M. Bardwell, superintendent of schools of Aurora, was a visitor at the college Friday. Mrs. George Olmstead, of Danville, is visiting her daughter, Miss Madge.

Miss Mary E. Dutch, of Berkeley, Calif., and formerly of this city, has given the library a number of bound magazines, which are greatly appreciated. Gifts have also been received of their own writings from the following authors: Alice Hogan Rice, Oscar Ray Adams, Robert Herrick and Harold Bell Wright.

The weekly pupils' recital, which was given on Thursday, was especially well rendered, and showed most rapid progress by quite a number of those taking part. The program as given has already been published in the paper.

The March number of the Greenings has just been issued and is a very interesting number, containing quite a few items of particular interest to the students as well as alumnae.

On Tuesday night Miss Gillett, head of the Home Economics department, read a very interesting paper on "Metabolism" before the science and mathematics teachers of the city. The meeting was held in Phi Nu hall and was largely attended.

At the meeting of the faculty on Tuesday afternoon, Miss Grace Cowgill, head of the German department, read a paper, "Burnt Njal," one of the folk-lore stories of Iceland. Miss Cowgill presented this in a most delightful manner.

CONSERVATORY NOTES.

The Illinois College chorus will hold its regular rehearsal Monday evening, March 4, at 7 o'clock. It is urged that all members be prompt in attendance that the rehearsal may close punctually at 8 o'clock. In the temporary absence of Mr. French, Mr. Munger will act as conductor.

Miss Nathalia Jensen will play the Religious Meditation from "Thalia," by Massenet, at State Street church Sunday afternoon, March 3, at Vesper service.

At the Musical History class on Wednesday afternoon selections from the works of Chopin, Schumann and Liszt were played by Misses Mae Gainsworth, Lorine Deweese, Alma Forsythe, Nathalia Jensen and Helen Phelps. A number of Victrola records were also heard.

ILLINOIS COLLEGE NOTES.

A committee, consisting of Coach Hartman, August Gummshelmer and Mrs. Rammelkamp have been appointed to secure the basketball team of the Canton high school, the champions of the recent district contest.

It is expected that Professor W. O. Beal, who was recently called to Michigan by the death of his father, will return to the campus on Monday. Dr. Elmer C. Sherman, superintendent of the public school system of Englewood, N. J., was a visitor on the campus Friday. He made a short address to the students at the chapel exercises. Mr. Sherman was principal of the high school at South Orange, N. J., at the time President Rammelkamp was preparing for college.

The January number of "Al-Kulliyah," a magazine issued by the Syrian Protestant college at Beirut, contains an interesting article on "The Dog Rover Cave" by A. E. Day, '88, who is at present on the faculty of this college.

President Rammelkamp attended the recent convention of the department of superintendents of the National Educational association in St. Louis.

TEXAS INDEPENDENCE DAY.

Austin, Texas, March 2.—The 75th anniversary of the declaration of Texas independence was observed as a public holiday throughout the state today. In 1821 Mexico achieved her independence from Spain and established a republican government. In 1836, the usurping governor of Texas, prohibited further immigration from the United States, fearing that the white settlers would not be dominated as were the Mexicans. Santa Anna, with whom the colonists had, overturned the constitution of 1824, and declared himself a dictator. The Texans continued their efforts for the observance of the Mexican constitution, but, galled by tyrannical oppression, held a convention at Washington on the Brazos. On March 2, 1836, this convention declared the independence of Texas and began the drafting of her constitution. Gen. Sam Houston was re-elected commander in chief of the Texas armies and David G. Burnet was made president of the new republic.

TELEPHONE INVENTOR IS 65.

Washington, March 2.—Many messages of congratulation have been received at the home of Alexander Graham Bell in anticipation of the birthday anniversary of the inventor of the telephone. Professor Bell was born in Edinburg, Scotland, and will be 65 years old tomorrow. He made his first experiments with the telephone while residing in Brantford, Ont. The invention was placed on exhibition at the Philadelphia international exposition and a short time later the first practical line was put in operation between Boston and Salem. Professor Bell is one of the few great inventors who have lived to see the fruition of his invention and also to reap the financial benefit of it. For a number of years the inventor has made Washington his winter residence. He has a summer home and laboratory in Nova Scotia, where he has conducted experiments with a view to perfecting the flying machine.

Good form

A Girl's Manners.

There are many small and unseen reefs upon which the girl seeking social success may come to grief, and one of the most dangerous is that of broken social engagements.

In the present day old fashioned courtesy and consideration seem to be asleep or else to have left society entirely. The modern hostess only too frequently receives a telephone message from some guest at the last moment saying without the least compunction: "So sorry, but it is impossible."

As a rule, this sort of thing is inexcusable. Of course conditions may arise under which nothing else can be done, but the girl who usually sends a message of this kind is of the selfish type and rarely succeeds in attaining popularity. She is thinking more of her own caprice than of her hostess.

It is not an easy matter to fill in at dinner or luncheon or bridge. No matter how well poised a hostess may be, a disappointment of this kind is upsetting, and the selfish or thoughtless girl who is the occasion of her embarrassment is apt to have a black mark against her name in that particular hostess' mind.

The trouble is that the girl of today is too careless in her acceptance of invitations. On the spur of the moment she accepts and then frequently decides that the whole thing is a bore, or something else comes up that she would prefer doing, and she finally ends by declining the invitation at the last moment, thus arousing an antagonism that cannot help but handicap her in her social career.

It is a simple matter to decline to the first place. A declination of this sort a hostess has no right to resent, but once her list is closed it is another matter.

Telephone Is One Cause.

A young girl recently remarked that she accepted every invitation which came to her, then picked those she preferred, throwing over the others. "This sounds well, but sooner or later it will result in unpopularity. Neither courtesy nor consideration justifies such a course."

Naturally one has preferences. There are certain things one would rather do. A girl should make up her mind what these things are and accept them before everything else, but she should not play fast and loose with invitations she does not want.

Let her decline them definitely the moment they are presented to her and she will find she makes fewer enemies, while at the same time she pleases herself.

One hears the "I'm sorry" girl say, "Oh, that is all very well, but what can one do in this day when people call you on the telephone and fire invitations at you point blank and your mind is as destitute of excuses as an empty wardrobe?"

The best advice for this situation is to learn to think quickly and decline definitely if it is a thing one does not care to do. One can always have an engagement to sit at home, and cultivate one's mind.

Courtesy Always Pays.

The average girl will say that this is a trivial subject, and if courtesy and consideration are trivial then it is; but it is the little things that so often get us disliked and land us in the lonely land.

The girl who accepts an invitation as an evidence of good will and treats it with perfect courtesy will find her social path smoother and her own pleasures less complicated.

The Rolling Stunt.

Not known to the multitude is the fact that almost every rich and portly dame has a "rolling suit" which very much resembles the small child's flannel nightgown or the unstuffed covering of a rag doll.

When, one of the aforementioned dames climbs into her suit it is very much stuffed, and the extent to which her adiposities has been reduced is gauged each day by the fit of the suit. Worn with it is a cap that ties on like a bathing cap, for madam's hair is apt to collect dust from the floor space where the rolling stunt is performed.

Fifteen minutes before breakfast and again at bedtime is the allowance for this pastime, which includes ten turns over and back each time. This means all the way over and twice over if space allows. Little or no effort is required for the turning, and if the exercise can be followed by a hot bath so much the better.

Those who wish to reduce more rapidly than is accomplished by rolling alone have recourse to touching the finger tips or palms of the hands to the floor without bending the knees, as additional efforts, and also to the equally old and reliable method of lying on one's back on the floor and raising each leg straight up from the body for thirty consecutive times, and then both together for as many more times.

These natural motions and walking, though slower and requiring greater hope and patience on the part of the robust one, are much safer than drugs, for medicines powerful enough to dissipate adipose tissues have an injurious effect upon the organs of the body, and too many cases of "heart trouble" have resulted from trying some little patent recommended by a formerly fat friend.

"Pittsburgh Perfect"

The Quality POULTRY and GARDEN FENCE

Stretch "Pittsburgh Perfect" Fence 'round your poultry yard, and note how much better it looks than the old fence it replaces—the air of distinction it gives to the whole premises. Observe how it actually keeps in the smallest chicks, and keeps out all wild and domestic animals. As years roll on, you see no spread staves, no rusted, broken and loose wires, no sagging between posts; instead, the fence remains erect, even and firm, because it is essentially a service fence of highest quality. Yet it costs no more than an inferior fence.

All "Pittsburgh Perfect" Fence is made from Open Hearth wire, tough, strong, durable like old time iron wire, and perfectly galvanized with pure zinc by air exclusive process. At every point of contact the wires are

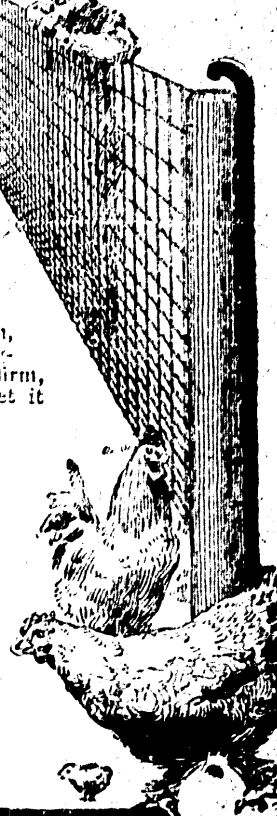

ELECTRICALLY WELDED

This feature is found only in "Pittsburgh Perfect" Fence, and doubles its strength, durability and appearance over all other fences.

GRIGGSVILLE LOST

Jacksonville High School Basketball Team Wins Easily From Pike County Lads, Score 39 to 15.

The Jacksonville High school basketball team proved an easy victor in the game against Griggsville last night in Strawn's hall, the score being 39 to 15. Griggsville has a good team, but they are accustomed to playing on a smaller floor. However, they have had an opportunity of playing two other games on the local floor at the time of the tournament. Tandy was the particular bright star for the locals, getting twelve head baskets and one foul basket. The score at the end of the first half was 23 to 6 in favor of J. H. S. On account of the stormy night only a small crowd witnessed the contest. Jacksonville will play their last game of the season March 15, when Springfield comes here.

The line-up follows:
Griggsville—Wade and Anderson, forwards; Groves, center; Daniels and Farrand, guards.

Jacksonville—F. Stewart and McLaughlin, forwards; Tandy, center; Reeve and Frye, guards.

Scores—Field goals, Wade, 2; Anderson, 3; Groves, 2; Stewart, 2; McLaughlin, 1; Tandy, 12; Frye, 1; Foul goals, Groves, 1; Tandy, 1. Farr filled the position of referee in a capable manner.

MEN AND RELIGION

FORWARD CAMPAIGN.
Oakland, Calif., March 2.—The local arrangements have been completed for the campaign of the Men and Religion Forward Movement in Oakland, Berkeley and Alameda. The campaign proper will open in this city tomorrow afternoon when Raymond Robbins will address a mass meeting for men. Students can be conducted throughout the succeeding weeks by experts on boys' work, social service, life's study, missions and evangelism.

SHOULD WRAP BOOKS.

During the snowy and rainy weather the city librarians take extra precautions in sending out books from the library to see that they are wrapped so as to keep off the dampness. In this way the life of the books is about doubled. Patrons of the library can help in the preserving of books also by seeing that the volumes they return on rainy days are well protected. Books should be wrapped, especially when they are returned by children.

DOG CAUSES RUNAWAY.

N. E. Edwards, who resides northwest of the city, was driving into town Saturday morning and as he was at the junction of North West street and West Lafayette avenue, a dog ran out and nipped a horse on the leg. The animals began kicking and Mr. Edwards jumped out and while trying to manage the frightened horses received an ugly kick on the shin, which forced him to seek a physician. One of the horses got completely away and ran some distance before caught.

REVIVAL AT WOODSON.
